Forecast for Sunday 26 Dec 2021

Weather: A cloudy day with patchy snow edging north through the morning, this turning to rain across the south and along the west coast. Not all ranges will see precipitation, Argyll may only small amounts. Southern Lochaber will remain dry until dusk.

Chance of cloud free mountain/hill tops above 800m: 30%, best of the cloud free summits across southern Lochaber.

Visibility: Very good in the far north where summits should remain clear until dusk. Elsewhere becoming poor as extensive low cloud down to 400 to 700 metres edges northwards through the morning and early afternoon.

Met Office Aberdeen Meteorologist's View
Bitterly cold in summit severe gale or storm force southeasterly winds.

Forecast for Monday 27 Dec 2021
Weather: A little patchy snow at first in the early hours. Then a mainly dry day expected although some low cloud may linger throughout the day across the Trossachs and the southwest.

Maximum wind: Southerly 15 mph

Chance of cloud free mountain/hill tops above 800m: 50%

Visibility: Poor in low cloud down to 500 metres, this may be widespread in the south. Best chance of cloud free summits will be across western Argyll and southern Lochaber

Temperature: **Glens:** Minus 1 rising to 5 Celsius
At 800m: Plus 2 Celsius
Freezing level: 1000 metres
